About Nepcool

Nepcool has been a trusted name in Nepal's refrigeration industry, providing cold storage and transport refrigeration solutions. Founded in 1995, we initially specialized in fabricating kitchen and dairy equipment before pivoting to cold storage and transport refrigeration in 2012. As industry leaders, we combine advanced technology with a commitment to quality, delivering durable, efficient products that exceed expectations. Whether you're in the meat, dairy, agriculture, or pharmaceutical industries, we're more than just a manufacturer—we're your partner in success, pushing the boundaries of cold chain storage and logistics.

With over 25 years of expertise, we take a highly personalized approach to meet your unique needs, ensuring reliability and innovation in every solution we provide.

Certifications

Why Nepcool

- ✓ Competitive Price
- ✓ In-house Production Facility
- ✓ After Sales Service
- ✓ Best Quality Products
- ✓ 25+ years of experience

Products

- ✓ Cold Storage Room
- ✓ Transport Refrigeration
- ✓ Refrigeration Unit (Cold Storage Room)
- ✓ Other Accessories

Cold Storage Room

Cold storage rooms are insulated chambers designed to maintain specific temperatures, preserving perishable items by extending their shelf life. They help prevent spoilage, ensuring optimal freshness for food, pharmaceuticals, and other temperature-sensitive products. These controlled environments are essential for industries requiring long-term storage and distribution of perishable goods.

Specifications

- ✓ Panel Thickness(mm): 50, 75, 100, 120, 150
- ✓ Wall/ Ceiling surface Material: PPGL, SS
- ✓ Floor Surface Material: PPGL, SS, Checkered Sheet, Kota/P.C.C
- ✓ Density: $40 \pm 2 \text{ kg/m}^3$
- ✓ Temperature Range: -40°C to $+40^\circ\text{C}$

Features

- ✓ Modular Design
- ✓ Walk-in Chamber
- ✓ Custom Built
- ✓ Density: $40 \pm 2 \text{ Kg/m}^3$
- ✓ All Side Camlocks (Wall-wall, Wall To Ceiling/floor)

Applications

Transport Refrigeration

(Reefer Truck / Van)

Transport refrigeration, also known as reefer trucks or reefer vans, refers to vehicles equipped with insulated cargo containers designed to maintain the temperature of perishable goods during transportation. These vehicles ensure food, pharmaceuticals, and other temperature-sensitive items remain fresh and safe during transportation.

Specifications

- ✓ Cargo Length: Upto 20ft
- ✓ Insulation thickness: 100mm
- ✓ Temperate Range: +15°C to -25°C
- ✓ Operating Type:
 - a) Vehicle Engine
 - b) Electric Standby
 - c) Self Powered Option

Features

- ✓ Lightweight GRP body
- ✓ Less fuel consumption
- ✓ Jointless single panel body
- ✓ Better thermal insulation
- ✓ Corrosion resistance (Rustproof)

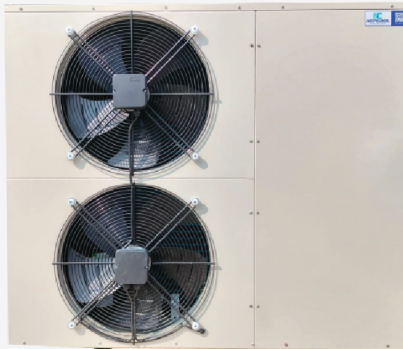

Refrigeration Unit (Cold Storage Room)

Refrigeration units are the main component of the cold storage room which is required to maintain the desired temperature inside the cold storage room.

Features

- ✓ Rust free aluminium canopy
- ✓ Capacity Range 2HP to 30HP
- ✓ Compressor Type:
Reciprocating, Scoll,
Semi-Hermatic Reciprocating

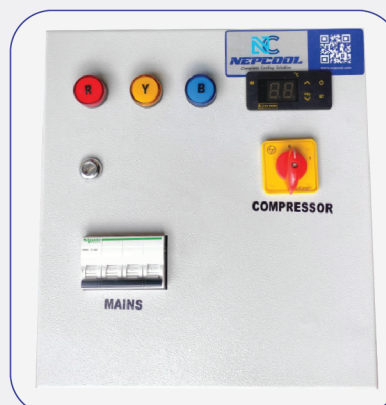

Condensing Unit

Evaporating Unit

Control Panel

Other Accessories

Door Frame Set

Industrial Ultrasonic Humidifier

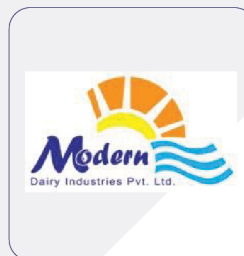

Strip Curtain

Incubation Heater
